*\*Uniform Plumbing Code is a copyrighted publication of the International Association of Plumbing and Mechanical Officials*

## Compliance with the following standard:

IAPMO PS 46-2010, Field-Fabricated Tiling Kits

## Identification:

Each kit shall be clearly labelled. The label shall include at a minimum the manufacturer's name or trademark as well as the ICC-ES PMG certification mark.

## Installation:

Prefabricated tiled shower panel kits shall be installed in accordance with the manufacturer's published instructions and the applicable code(s).

Ceramic tile must comply with ANSI A137.1.

When provided drains must comply with either ASME A112.6.3 or ASME A112.18.2 as applicable.

**Models:**

1500 Series, 2000 Series, 3000 Series, 4000 Series, and 5000 Series

Shower panel kits include bracketing components, waterproof and mold resistant polycarbonate sheets, epoxy grout, sealants and drain.

The listed kits are offered in various tile color and pattern options. Optional electrical components must be low-voltage LED type or be listed with UL to the applicable UL standard.

**Conditions of Listing:**

1. The part numbers associated with different colors may vary. However, the model numbers listed above are considered listed models in all colors mentioned above.
2. Electrical components other than low-voltage must be properly installed with applicable electrical code requirements.
3. Kits are manufactured by Innovant Building Systems, Inc., in Moorpark, California under a quality control program with annual surveillance inspections by ICC-ES PMG.
